

Giving Life Insurance

Do you have a life insurance policy that you no longer need?

Like many of us, you may have purchased a life insurance policy many years ago to ensure the financial security of your family. Today, your family circumstances may have changed, and that policy is no longer needed.

If so, we hope you will consider making a gift of that policy to North Care Women's Clinic

By giving outright and complete ownership of a partially or fully paid-up life insurance policy, you will be able to claim an immediate income tax deduction. The amount of this deduction is based on the lesser of the policy's fair market value or the net premiums paid. The policy is also removed from your estate valuation for tax purposes.

Another easy option for giving life insurance is to name North Care Women's Clinic as a primary or contingent beneficiary of your new or existing policy.

Regardless of when or how you decide to give, your life insurance policy can help ensure that a safe place for women facing unplanned pregnancies to find hope exists in our community for many years to come.
